Experience

Scoutframe / Devbout, (Remote, ARG) - Software Engineer

10.2018-Current

- As a Full stack Developer at ScoutFrame/ Devbout I designed and developed high-quality web and mobile applications for businesses and small enterprises, with a focus on usability and functionality. Additionally, I built databases and APIs and collaborated with teams to lead end-to-end projects, ensuring that the software solutions met client needs.

Education

University of Informatics Sciences (UCI), Havana - Computer science engineering

09.2012 - 08.2017
